1	Thuttappagowda, Patel of Korakodu, on behalf of the villagers.	24-2-20	States that the villagers have no objection to the proposed reservation, if a bit of land in Survey No. 9 be left for the cattle, (2) and cattle allowed to go for watering to the pond in Survey No. 9.	...	I agree As this is not shown in the re-survey map, I do not consider the water source to be of sufficient importance to justify a right of way being recognised and granted thereto.	This is a proposal to take up some land in Kuppegadde and S. No. 9 of Korakodu for a block. Korakodu people through their patel urged for a margin adjoining their village and cultivation numbers out of this number. Their gomal area is quite sufficient for their cattle; and to give a sufficient margin to all cultivation numbers and to give a straight boundary to the block, I decide to take over the whole part of S. No. 9 to the west of the lines joining a point five chains west of the middle point of the western face of S. No. 8 with the northernmost point of S. No. 9 in the north and the junction of S. Nos. 9 and 30 to the south. The villagers will get free jungle wood for agricultural implements and thorns for fences. etc., on permits from the Forest Department.	
2	Narasimhaiah, Patel of Kuppegadde, on behalf of the villagers.	Do	Says that Kuppegadde has no village site and raiyats live in Jodi Kuppegadde. 2. Prays that sufficient grazing ground may be left in Survey No. 306 and the surplus be taken over to the block	...	..... I agree	This is a peculiarly formed village. The Jodi Kuppegadde village goes as a tongue into the kharab No. 306. The Revenue Commissioner in sending up the proposal papers to Government recommends that a small extent of this number may be set apart for the expansion of cultivation. To provide for this and to give the cattle in this village some grazing ground, I decide to leave out: - (i) The southern bit of the numbers to the east of the line joining the line on the frontier between the Kuppegadde and Korakodu about twenty chains to the north-east of the trijunction bhands of Tavanandi, Korakodu and Kuppegadde with the westernmost point of the Jodi Kuppegadde tongue and (2)the northern bit of the north-east of the road leading from Sorab to Anavatti. The usual cultivation margin will be allowed for Survey Nos. 272, 271 and 266 in the north and 305 in the south. No cultivation margin has been allowed for the Inam cultivators if any abuting on the border.	
3	Tavanandi ...	...	No cultivation of the villagers.	..	.....	No body has turned up to represent their claims. The proposal will be modified by joining the eastern corner of S. No. 36 with a point on the common boundary between Kuppegadde and Tavanandi, about seven chains south-east about south-east corner of S. No. 305 and thence on to the frontier between Kuppegadde and Jodi Inam Kuppegadde eleven chains north-east from the northernmost point of S. No. 305. Right of way allowed all over.
